Super-prime rental opp up for grabs on Redington Gardens.

A “spectacular” contemporary townhouse in London’s Hampstead has hit the rental market at £10k per week.

The super-prime opp on Redington Gardens measures 7,352 sq ft, and has a fresher feel than your average neoclassical-style NW3 mansion.

Laid out over five floors (with lift) and bristling with state-of-the-art tech, the recently-built creation has a basement floor kitted out with a games room and bar, gym, changing rooms, cinema, study and staff bedroom suite.

The two main entertaining levels house a family kitchen/dining space, formal dining room and a reception overlooking the 61-foot private garden.

Above are five bedrooms, including a main suite with its own sitting area, dressing room and bathroom. The driveway is big enough for two vehicles.

Ian Green Residential has the instruction.
